

BMW (E36) - (NON - POWER SEAT) FIRE EXTINGUISHER MOUNT
INSTALLATION INSTRUCTIONS

This mount has been designed to adapt an Amerex 2.5 lb. Fire extinguisher to E36 model BMWs.

Note: This mount limits seat travel. It may be necessary to locate it on the passenger side based on driver's seat positions.

Step 1. Move seat rearward to expose front seat track mounting points. Carefully pry off caps to expose mounting points.

Step 2. Remove nuts. (Both inside and outside tracks).

Step 3. Position BK extinguisher mount as shown.

Step 4. Reinstall factory nuts and cap.

Step 5. Position extinguisher bracket as shown and attach using supplied hardware.

Step 6. Carefully move seat forward making sure that there is no interference between the extinguisher/mount and the seat. Pay special attention when the seat is in the foremost position, making sure that the front of the seat does not contact the extinguisher.

Step 7. Finished installation should look like this.

Performance driving events are by nature potentially hazardous to your health. Brey-Krause Mfg. Co. Inc. shall not be liable for injury, consequential, or other types of damages resulting from the use or misuse of our products. Proper installation of these parts is critical and should only be done by a professional shop.
