

R-9065

SIDE MOUNT BRACKETS FOR COBRA NOGARO

The Brey-Krause R-9065 side mount bracket kit adapts (1) Cobra Nogaro seat to part number 0.20.40 Recaro sliders, positioning them centered over the sliders.

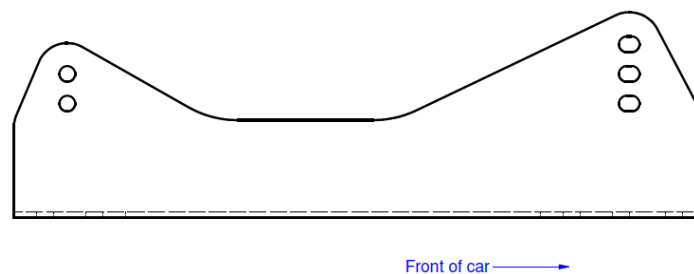

When using Sparco sliders it is necessary to use Brey-Krause part number R-9045 actuating tube. This allows the sliders to be mounted 16" apart as necessary in all Porsche models.

When mounting a seat in a 996 or Boxster it is necessary to use Brey-Krause seat track adapters to adapt Recaro or Sparco sliders to the chassis. Use part number R-9040 for Recaro part number 0.20.40 sliders or part number R-9041 for Sparco sliders.

Nogaro

Position the side mounts so that the adjustments for tilt are towards the front of the sliders and the jog bends come outward from the seat.

Use the supplied hardware to mount the side mounts to the seat track sliders.

Performance driving events are by nature potentially hazardous to your health. Brey-Krause Mfg. Co. Inc. shall not be liable for injury, consequential, or other types of damages resulting from the use or misuse of our products. Proper installation of these parts is critical and should only be done by a professional shop.
